

Arriving at LAX the morning of February 1st, 1979 is still fresh in Sherry's mind. As an immigrant student, Sherry quickly developed a passion for the United States and her freedom to accomplish anything she set her mind to.

Life is what you make It

Motivated and active, Sherry is the mother of three wonderful children. Her daughter graduated from UCI, her son recently attending Moorpark College and her youngest son is deciding on his college of choice.

Sherry loves reading and spending time with family and friends. She also enjoys cooking, swimming, gardening and recreational sports.

"I think the most important lesson of all is that life is really what you choose to make it, and I want to make it as nice as possible for myself, my family, and my clients as well."

Sherry's Personal Real Estate History

"I began my love for real estate with my own investments. We bought our first house in 1980 in Newbury Park. It was a "Fixer" for \$95,000 with an assumable loan. We purchased our second house on one acre three years later for \$190,000. In 1987 we began new construction on a custom home on two acres of avocado orchard."

Prior to becoming a licensed agent in 1990, Sherry earned her Associate in Science degree in computer programming in addition to earning her Bachelor in Art degree in economics from California Lutheran University.

Sherry's impressive success can be attributed to her passion for knowledge and discerning application of her skills during the most critical of negotiations. Sherry's exemplary reputation has proven to make her one of the most highly regarded and recommended realtors in the community.

Sherry's Commitment to Her Clients

"When I started in Real estate, all I had to offer my clients was a big smile and lots of enthusiasm."

For Sherry Z., giving 100% is never enough. She is determined in everything she does. This respected business woman understands that hard work, commitment, and focus are absolutely essential to achieve success for herself and her clients.

Blooming Success Since 1990

Sherry puts her enthusiasm and energy to work for her clients to get the great results they deserve.

"Having experienced it first hand, I enjoy watching people succeed through their own investments. Every client's transaction is very gratifying, and is always a new adventure. I love what I do for a living and enjoy sharing my insight and knowledge with my clients and colleagues. I am committed to making their sale or purchase a stress-free experience and complete success."
